ABLI Legal Convergence Series

RECOGNITION AND ENFORCEMENT OF FOREIGN JUDGMENTS IN ASIA

ASIAN BUSINESS LAW INSTITUTE

15 country reports written by legal academics and practitioners in their respective countries on how foreign judgments in civil and commercial matters are recognised in Asia.

As the first study of its kind that covers the laws of all ASEAN countries in addition to the major Asian economies of China, India, Japan, South Korea and Australia, this book will be a valuable resource to commercial entities engaged in business across Asia. We also hope that its publication will provoke constructive dialogue and law reform in Asia to facilitate the cross-border movement of judgments.”

Professor YEO Tiong Min SC (honoris causa)

Yong Pung How Chair Professor of Law, Singapore Management University and ABLI's Academic Director

ABLI provides practical guidance in the field of Asian Legal Development and promotes the convergence of Asian Business Laws.

While significant differences do exist, there is cause to believe that harmonisation of the recognition and enforcement of foreign judgment rules in Asia is no pipe dream.”

Associate Professor Adeline Chong

The School of Law, Singapore Management University and ABLI's Project Lead

PUBLICATION HIGHLIGHTS

- ▶ Covers the ASEAN Member States, Australia, China, India, Japan and South Korea
- ▶ It is the first part of ABLI's project to promote the convergence of the law on the recognition and enforcement of foreign judgments in Asia
- ▶ The need for harmonisation of the foreign judgment rules is particularly acute as Asia moves towards every closer economic integration and increasing cross-border trade
- ▶ A useful compendium for lawyers and businesses due to a lack of publicly available, up-to-date and accurate information written in English in some of the countries covered
- ▶ The overall objective of the project is to facilitate cross-border transactions by lowering transaction costs and associated legal friction through the greater portability of judgments in this region
